

# SUNLAND WATER DISTRICT

## Commissioners Meeting

April 2017

### Manager's Report by Mike Langley

~~~~~

### Financial Report by Karen Shay

### Water Reclamation Facility

- Mike Cays has re-submitted the Reclaimed Water Permit Renewal Application along with refinements to the Washington State Department of Ecology.
- The grass is growing in the spray field and we're hoping for the farmer to show up soon.

### Water Meters/Meter Setters

- Scott and Dutch are working in Division 11 as well as wrapping up the remaining undone meters/setters scattered throughout the community.
- SWD personnel have installed the meter and setter at the SG&CC Maintenance Facility.
- Twenty water meters have yet to be installed.

### Water Production/Consumption Results

- No change in well water levels.

## Other

- I've been out reading water meters as Karen and Judy have been struggling with the Vision folks as well as the Sensus meter folks to make it all give us the data we need. We've got a way to go on this, but we're moving forward.
- SWD personnel are draining, cleaning, and refilling the lower reservoir this week.
- Hoch Construction has finished the sheetrocking at the new office building and will be painting this week.
- Hoch Construction is awaiting PUD action so they can run the new power to the office building and the barn.
- We have purchased the first two bacteria test sample stations and will be installing those this week or next.
- The production meter on well No.1 failed. I've ordered a replacement that we'll be installing next week.
- Dutch has passed his Water Treatment Plant Operator 1 exam. Good job Dutch!
