

SUNLAND WATER DISTRICT

Commissioners Meeting

March 2014

Manager's Report by Mike Langley

Financial Report by Celeste Lilley

Water Reclamation Facility

- The Department of Ecology is in the process of final review for the 2014 WRF Improvements Plans and Specifications.
- The Application for Coverage is being circulated for public comment.
- The new reclaimed water filter has been put in place next to the filter building. The wiring for that unit is in process.
- Straits electric have installed the additional power panel necessary for all the 2014 improvements.
- Invitations to bid for the 2014 WRF Improvements will be advertised on or before March 31, 2014.
- The Weyerhaeuser Timber Company is not interested in receiving any biosolids at this time but may be in the future.
- I met with Carol Creasey of Clallam County Health Department and she is very open to alternative methods of aquifer recharge using our class reclaimed water.
- SWD personnel have been trapping moles in the spray field to reduce the amount of dirt getting into a farmers haying equipment.

Meter Setters

- Scott has begun installing setters in Division 11 and assorted missed residences.

Water Consumption Metering Results

- Readings from our water meters on occupied single family residential lots in SunLand for the last 30 days averaged **80** gallons per day. The average daily consumption, based on an annual average per connection, is **196** gallons.
- The SG&CC facility has averaged **729** gallons per day over the last 30 days, compared to a historical average daily consumption of **1014** gallons.

Other

- SWD will be scheduling visits this spring with water meter and metering technology venders.
- Oasis Well Drilling has removed the old pump from the lower well and is installing the new pump today.
- I sent a second email to Senator Hargrove requesting support for SSB 6008.
