

# SUNLAND WATER DISTRICT

Commissioners Meeting

April 2015

## Manager's Report by Mike Langley

~~~~~

## Financial Report by Celeste Lilley

### Water Reclamation Facility

- The 2014 improvements for the WRF are essentially complete. The following items and issues have been fully addressed:
  1. The programming is currently not complete **COMPLETED**
  2. Spare parts are coming from Taurus Controls **COMPLETED**
  3. Gorman Rupp needs to install some gages **COMPLETED**
  4. Ciccanti is replacing an aerator motor that has a seal leak **COMPLETED**
  5. The new monitoring well remains incomplete **COMPLETED**
  6. The O&M manual has not been delivered **COMPLETED**
  7. The As-built drawings have not been delivered **COMPLETED**
  8. SWD has received the engineer's project completion report from BHC.
  9. The As Built Drawings, the O&M Manual Supplement for 2014 Improvements, and the Engineer's Project Completion Report will all be submitted to the Department of Ecology for review and approval this week.
  10. SWD personnel have been testing and operating the new equipment at the WRF under different conditions and modes of operation
  11. The Washington Department of Ecology sent two representatives to oversee the monitoring well decommissioning and new well drilling process.

- The new reclaimed water filter project yet awaits the connection of a new analyzer.
- Farmer Troy Smith will be at the WRF to harvest silage from the spray field in two weeks.

### **Meter Setters**

- Scott is installing water meter setters in Divisions 11, 17 and assorted missed individual residences.

### **Water Consumption Metering Results**

- Readings from our water meters on occupied single family residential lots in SunLand for the last 30 days averaged **91** gallons per day. The average daily consumption, based on an annual average per connection, is in the neighborhood of **200** gallons.
- The SG&CC facility has averaged **636** Gallons per day over the last 30 days, compared to a historical average daily consumption of approximately **1000** gallons.

### **Other**

- Wallene has been busy working with the Vision programs as well as assisting with customers and working on the O&M Manual.
- Vision IT will be here on April 22 and 23 for Utilities and Cash Management training.
- The sludge truck has been in the shop for some maintenance and repairs this month.
- The cutters on both pumps at the Taylor Blvd sewer lift station have been replaced.
