

# SUNLAND WATER DISTRICT

Commissioners Meeting

February 2015

## Manager's Report by Mike Langley

~~~~~  
~~~~~

## Financial Report by Celeste Lilley

### Water Reclamation Facility

- The temporary hypochlorination system is gone and the plant is running on the new hypochlorination system.
- Ciccanti personnel have worked through the four pages of items the engineers saw as needing to be addressed regarding the 2014 WRF Improvements.
- The 2014 improvements are 99% complete. The only things remaining are:
  1. A direction of flow indicator for a 4" valve
  2. Replacement of a few fastener bolts in the pre eq wet well
  3. Installation of stainless steel cables in the sludge wet well
  4. Handle extensions for the shear gates in the sludge wet well
- Al Friedli, the programmer, will be back next week to do some final programming and install the system to allow him to make adjustments to our operation program from remote locations, similar to the arrangement we have with Vision.
- The new reclaimed water filter project remains 95% complete.
- The construction Trailers for Ciccanti and the electricians have been removed.

## **Meter Setters**

- Scott is installing water meter setters in Divisions 11, 17 and assorted missed individual residences.

## **Water Consumption Metering Results**

- Readings from our water meters on occupied single family residential lots in SunLand for the last 30 days averaged **112** gallons per day. The average daily consumption, based on an annual average per connection, is in the neighborhood of **200** gallons.
- The SG&CC facility has averaged **658** Gallons per day over the last 30 days, compared to a historical average daily consumption of approximately **1000** gallons.

## **Other**

- Wallene has been working with Celeste to begin incorporating SWD general operations into the Vision software. We've been moving things around in the water district office to make it a more useful space.
- I talked to Bill Morlan of Division 7 about water meter setters. He has requested that I update them at their next board meeting.
