

SUNLAND WATER DISTRICT

Commissioners Meeting

May 2019

Manager's Report by Mike Langley

~~~~~  
~~~~~

Financial Report by Karen Shay

Water Reclamation Facility

- The farmer is harvesting the hay from the spray field at the Water Reclamation Facility this week.
- Rich attended a Wastewater Plant Operator Level II exam preparation class and will be taking the exam for that certification level soon.
- Willy and the crew at the WRF are organizing all the spare parts and will be incorporating that into a special cabinet dedicated to that purpose.

Water Meters/Meter Setters

- Scott has just completed the 15th water meter read for all of SunLand. The next water meter read is planned for the first week in June.

Water Production/Consumption Results

- Static water levels in the groundwater wells are dropping slightly as irrigation begins. *

- Total water production in April of 2019 from both sources was 4,953,880 gallons, for a total water production in 2019 of 14,417,460 gallons.

Other

- Mike Langley will be participating in a WASWD workshop about the removal of Pharmaceuticals and Personal Care Products (PPCP's) from the wastewater stream. The workshop will take place at the WASWSD offices in Tukwila on May 17, 2019.
- SWD personnel have found a replacement backhoe which will be delivered on Tuesday, May 14.
- SWD personnel have finished installing the fencing around the new office building and are making some repairs to the lower reservoir emergency generator room.
- Unaccounted for water consumption is at 10% for April
- The Taylor lift station installer was here Friday to confirm that all the logistics were in place for the replacement of that equipment.
- The water mainline flushing and fire hydrant exercising is complete for this year.
- The replacement backhoe is scheduled to be delivered on 5/14/19.
- SWD personnel have been painting fire hydrants and isolation valve marker posts.

- Straits Electric has been servicing SWD emergency generators and electrical control panels.
