

WATER AND WASTEWATER TESTING

Water Testing

Tests Conducted Periodically As Directed

Asbestos	Insecticides
Dioxin	Inorganic Contaminants
Endothall	Lead/Copper
Soil Fumigants	General Pesticides
Glyphospate	Diquat
Herbicides	Volatile Organic Compounds
Other tests required as mandates filter down from the EPA	

Tests Conducted on a Regular Basis

Frequency	Type of Test
Monthly	Coliform Bacteria (2)
Annually	Nitrate (each source)

Wastewater Testing & Monitoring

Wastewater Influent

Frequency	Type of Test
Continuous	Flow
Two (2) Per Week	BOD and TSS

Final Reclaimed Water

Frequency	Type of Test
Continuous	Total Residual Chlorine Turbidity
Daily	Total Coliform Bacteria
Five (5) Per Week	pH Dissolved Oxygen
