

SUNLAND WATER DISTRICT

Commissioners Meeting

August 2020

Manager’s Report by Mike Langley

~~~~~  
~~~~~

Financial Report by Karen Shay

Water Reclamation Facility

- The most recent harvest of hay from the spray field has yielded 36 tons of bailed hay
- The annual maintenance of the air blowers has been completed
- The WRF crew are continuing Corona Virus sampling with all results displayed on the SWD web site
- The crop analysis has been completed, which tells us the nitrogen uptake of the hay
- The organic loading (BOD) has been high since March due to the “stay at home order”, requiring more folks to be home from work, travels, etc.
- Rich has hauled 11,200 gal of sludge to Sequim

Water Production/Consumption Results

- The next water meter read is planned for the first week of September
 - The water level in both wells is normal, down slightly with irrigation season
- Total water production numbers continue to appear high. We are continuing to look for leaks or other reasons for high production

Other

- A bee hive was removed from a water box at 138 Hogans Vista
- SWD has received three proposals for security upgrades at the Administration/Operation complex
- A broken sewer line in the green belt south of Cassalery and Hurricane Ridge Drive has been repaired
- SWD is receiving notifications from the call-before-you-dig center organization
- The office is back open to the public. However, safe practices are needed to help prevent the spread of the covid-19 virus

- Rocky has made improvements to the ventilation system at the lower reservoir
- Rich has parked his travel trailer at the WRF as an additional security action. The trailer will give an appearance of presence around the clock.
- Straits Electric, Taurus Controls, and Dykman Electronics, as well as SWD personnel replaced the two variable frequency drive units for the water pressure system
- Scott is ordering rebuild kits for the flowmeters at both pressure booster stations
