

SUNLAND WATER DISTRICT

Commissioners Meeting

September 2020

Manager’s Report by Mike Langley

~~~~~  
~~~~~

Financial Report by Karen Shay

Water Reclamation Facility

- Willy and Rich have been compiling information on the construction of a new building to contain equipment large and small at the WRF.
- Willy is making a sign identifying the SunLand WRF, which will be placed just outside the gate.
- The WRF crew are continuing Corona Virus sampling with all results displayed on the SWD web site

Water Production/Consumption Results

- The next water meter read is planned for the first week of September
 - The water level in both wells is normal, up slightly with irrigation season closing
- Total water production numbers continue to appear high. We are continuing to look for leaks or other reasons for high production

Other

- SWD personnel have been gearing up to install additional emergency power generators at the Taylor and Cassalery sewer lift stations
- Hi Tech Electronics of Port Angeles has completed the installation of an upgraded security system at the district administration/operations complex
- The City of Sequim will be providing a vac truck and personnel, to pump out the main sewer lift station wet well on Cassalery
- Seventh Wave Marine will be filtering and re-energizing the fuel in the emergency generator
- Pillar Creek Inc. will be sending a diesel mechanic to look at the engine for the emergency generator at the upper reservoir
- Rocky has made some long overdue improvements at the upper reservoir and pressure booster station
- Scott and Rocky worked late repairing water service lines at 120 Cascadia. Tree roots had broken the service lines
- Protective bollards have been installed on Taylor in front of the new sewer lift station there
