

# **SUNLAND WATER DISTRICT**

## **Commissioners Meeting**

February 2021

### **Manager's Report by Mike Langley**

~~~~~  
~~~~~

### **Financial Report by Karen Shay**

### **Water Reclamation Facility**

- Willy and Rich are continuing to test for Covid-19 at the WRF.
- Representatives from the University of Washington and the Washington State Department of Ecology will be at SunLand on February 19<sup>th</sup> to develop a plan to determine if the treatment process at the WRF kills the covid-19 virus.
- Willy and Rich have begun assembling the components of the new spray field irrigation system.
- Willy and Rich have been performing annual maintenance on the mixers and aerators in the SBRs as well as the pre-eq basin pumps and the blowers.

## **Water Production/Consumption Results**

- The total water meter read was completed last month and thanks to Scott, Rocky, and Karen's sleuthing, revealed some residential water leaks most of which have been resolved.
- The water level in both wells is normal for the winter months.
- Total water production numbers continue to appear high. We are continuing to look for leaks or other reasons for high production. Scott is continuing to investigate some irrigation that may not be metered.

## **Other**

- The new emergency generator at lift station #3 is up and running.
- A The diesel mechanic has replaced a failed voltage regulator on the emergency generator at well # 1.
- Scott has replaced a failed gate valve at Hilltop Drive and installed a meter on an unmetered irrigation line.
- SWD has been receiving a large number of reports from SunLand residents voicing their concern regarding the on-going water leak at 100 Sunland Drive. Judy has sent thank you notes to all who commented on the problem.
