

SUNLAND WATER DISTRICT

Commissioners Meeting

December 21, 2021

Manager’s Report by Brian Scott

~~~~~  
~~~~~

Financial Report by Karen Shay

Water Reclamation Facility

- Rich and Willy winterized the spray field irrigation.
- Biosolids hauling for the month was low due to the rains.
- Rich and Willy are working out the bugs on work sheets for daily reporting.
- Rich graded the drives at the plant.
- Field wells quarterly testing completed.

Water Production/Consumption Results

- The next total water meter read will be the first week of January.
- The water level in both wells is much better with the low production. 11% water loss.
- Total water production numbers continue to appear a lot lower. We continue to look for leaks.

Other

- SWD staff is working on putting in new butterfly valves in the reservoirs.
- Sam and Rocky took the Cross Connection test on December 6th, and both passed with flying colors.

- SWD called Bob Eichhorn, SLOA'S greenbelt person about removing a tree at the Fawnwood lift station that could have caused damage to the lift station. He quickly had the tree cut down and SWD staff will remove it.
- SWD, with Strait Electric, are still waiting on the word about the ship date of the generator for the main lift station.
- Two bids have been received for the Highway Lift Station. (Note: Both bids are for Smith and Loveless components.)
 - Joe Buckman, Apsco: \$121,000
 - Ed Mola, Utilities Service Company: \$100,000
- One of our SWD personnel tested positive for COVID on Monday. The District Manager closed the office and sent all staff members and their spouses to get tested on Tuesday morning. By Wednesday, everyone's result came back negative, and the staff returned to work on Thursday morning. The individual who tested positive will be quarantined for 14 days and will return after Christmas with two negative test results.
- Upon receipt of the required minimum payment, SWD staff reinstalled Mr. Oravetz' water meter/service on Dec. 16th.
