

# **SUNLAND WATER DISTRICT**

## **Commissioners Meeting**

**March 2024**

### **Managers' Report by Tim Berger**

#### **Water Reclamation Facility**

- The sludge truck was towed to Bremerton for repair work. It is out of warranty. The truck sensor has been replaced and should be available for pick up on 3/4/24.
- The new plant influent meter is scheduled to be installed at 0900 today, March 19th.

#### **Water Production/Consumption Results**

- Water loss for the month of January is 7%. This includes 15K gallons drained at the upper reservoir to allow for cleaning and application of fresh epoxy.
- The lower reservoir was cleaned March 11-15.
- A replacement for lower reservoir pump #2 was ordered from Fusion Pump on 3/7/24.
- The fire hydrant flow meter is on order and should arrive before Spring flushing begins.
- Employee training opportunities are available.
