

SUNLAND WATER DISTRICT

Commissioners Meeting

April 2024

Managers' Report by Tim Berger

Water Reclamation Facility

- Denny from Secord Excavation stopped by the WRF on 4/11/24 to evaluate potential building sites and estimate cost associated with developing.

Water

- 4/3/24: EJ Hydrants provided onsite fire hydrant training.
- 4/4/24: Smith & Loveless provided onsite lift station pump and operations training.
- Over 65% completed on lead/galvanized service line identification program: A handful of services must be physically identified.
- Remaining two cells at Lower Reservoir were cleaned and put back into service on 3/29/24.
- Water loss for the month held steady at 7%.
- The new hydrant meter is onsite. Exercising and flushing of mainline valves will be done this week.
